

1	World clock	Font style/color/vertical shape as shown in the last word-document	[Document unavailable] Kindly Resend
2	Masters of the financial industry	integrate the available stories / keep the shape from the word-files. Only Kostolany-story is online and the pictures are not in correct textflow and shape. Display exactly how it is in the final word docs	[Document unavailable]
3	Background color / font (size)	all sub-sites with black background and white/bright grey font color. Same font for all parts. The history text too.	[Document unavailable]
4	User Ranking	Symbol for "Stock Trading Master"-Rank misses the "Bitcoin". Check all user rank – symbols 	(Done)
5	Indices on header bar	Show US-Indexes first (or show these relevant indices: Dow Jones 30, S&P 500, Nasdaq, Crude Oil, Gold, Silver, Bitcoin.....)	[Working]
6	Registration Process	After I made a registration, I did not receive a confirmation e-mail. And when I tried to sign in, an error occured ("invalid credential...")	(Done)
7	User Account Management	The user must be able to add personal information such as address, city, date of birth, etc., after he has himself registered	(Done)
8	IRC Chat {Will do at last by integrating with whole website all together}	Integrate a so-called "IRC Chat", as I have shown in the word-files	[Document unavailable]

9	Picture loading	The pictures in "masters of..." are loading very slow. Are they too big (resize?)	[Done]
10	Translation engine (deepL API)	Integration of deepL for translation of the stock-related postings	[Needs paid authorization API Key]
11	Official SEC documents ("EDGAR")	Instead of "news", we show the official "K"-forms which are published on sec.gov	[Working]
12	Advertising spaces	For open the analyses (2000 characters), the user must click on a video-advertising. Arrange ad-buttons on every sub-site (Stock exchange holidays, history, user hall of fame, most discussed stocks)	[Needs Elaboration]
13	Single stock page	What conversation is going on, should be visible all the time..	[Done]
14	Shifting of blocks	Shift all blocks to the right side of the website on main page and show most searched stocks or important figures	[Done]
15	Stock ticker	Reolved screen issue on desktop/firefox browser - > Added compatibility	[Done]

After compatibility
